GENEALOGY: OF THE FAMILY "PEAT"

© David B. August 2004

This Genealogy dedicated to my Grandpa, Horace Ernest PEAT, who I remember whilst staying with him at his home at High Ham, Somerset, feeding us both breakfast on any day in bear, to my Aunts, Moe and Eve, and my Uncle Ted, who are all interested in the research but died before detailed information on their Grandfather Samuel and his parentage was found.

The family PEAT

The family seem to originate from Nottingham, & appear to have moved as a family from Nottingham to Woodhouse Parish, Nottingham, early 1800s. The first reference of a PEAT is in 1789, with a William PEAT, aged 70 m. 31/3/1810 Mansfield.

NOTE: Mansfield Woodhouse Parish Registers were Microfiched and were not scanned, there is some room for doubt where there is some room for doubt.

Most families only had a male heir, this is the case with many of the marriages who were all interested in the research but many graves would clarify matters, but many graves were illegible and had to be left blank.

A special thanks to my Aunts, Moe and Eve, and Uncle Ted, who were all interested in the research but died before detailed information on their Grandfather Samuel and his parentage was found.
